Have you ever faced any bad experience while using internet(e.g. any fraud or something else)

29 responses

- No
- Yes, metal health is effected, eyes pain, sleepless
- I don't remember
- Yes my clss disconnected many times by which many topics are not clear to me
- Yes
- Bad internet speed
- Spam mails
- Nope
- I have not particularly faced any serious issues except contact by fake ids that were blocked imediately,
- but people in my known have faced some issues like cyberbullying, Many online classes that I have attended, were interrupted by unknown people and made a chaos in the class, such experiences can be really bad for some students and teachers as well, their mental health can be affected.
- Sometimes adult ads popup from nowhere thats really annoying
- Not at all
- I never experienced anything ever on internet yet
- Not really
- Health issues, stress on eyes, obesity
